GOVERNOR

DAVID A. COLE  
COMMISSIONER

October 16, 2006  
Subject: **Rockland**  
Project No. BH-6069(20) & 6069.40  
Pin No. 6069.20 & 6069.40  
**Amendment No. 9**

Dear Sir/Ms:

The following questions have been received.

**Question:** With respect to Amendment No. 7, sheets 8 of 25 and 10 of 25 do not show the concrete trestle. Has this been removed from the project? Sheets 12 of 25 and 13 of 25 show that the bent pile spacing has changed – effecting deck beam spans. These numbers are not legible. We require drawings that are legible to finalize our bid. Sheet 18 of 25 and 19 of 25 show precast 4' walkway. How many of these walkways are there? Where are the bearing ends located? What are the design criteria on the walkways?

**Response:** Amendment No. 7 made available the Army Corp of Engineers permit for this project. The sheets referred to are the draft design sheets that were submitted for the permit, long before the final designs were completed. These sheets were to primarily convey the types of impacts on the environmental elements. These sheets do not replace the design sheets, with amendments, that were issued as part of the original package. Please prepare bids based on the design sheets as amended and not on the permit support sheets labeled 1-25 of 25.

**Question:** On sheet S5 (12 of 63) Bid Drawings dated 6/28/06 – the upper right corner Base Line Off Set chart. Are these Off Set numbers to be used to determine the width of the wharf?

**Response:** Yes

Consider this information prior to submitting your bid on October 18, 2006.

Sincerely,

Scott Bickford  
Contracts & Specifications Engineer
